**Oxalis stricta**
COMMON WOOD SORREL (Wood Sorrel Family)

Low plants with flowers in small long-stalked clusters; yellow flowers ¼-½" wide, stem more or less erect, not creeping; stalks of the pods horizontal or bent abruptly downwards; leaflets in 3’s, notched at the tip. 3-15" high (8-38 cm). At the Peacock/Woodworth Prairie, blooms from about the 4th week of May through the 2nd week of August.
